It's like that time you accidentally bought a jrpg and realized some people have vastly different ideas about what constitutes a game.. It's like that time you accidentally bought a jrpg and realized some people have vastly different ideas about what constitutes a game.. A fun game with a unique look. You start with a big debt and have to earn your freedom by earning money through various methods. Like mining or fighting in an arena or looting ruined cities. It mixes sci-fi with fantasy. For instance you can be playing as an orc and fighting a robot. It's a game I very much recommend.. A fun game with a unique look.
